★ Welcome to the TSH MDS FOR WINDOWS DOWNLOA...

 **The Systems House, Inc.**

***MDS FOR WINDOWS DOWNLOAD PAGE***

**IMPORTANT NOTE :The current version of WinMDS is 8.3.26, this version REQUIRES MDS version 12.09710 or above to run properly. If you aren't on the proper MDS version then either use the 8.2.1 version supplied below OR contact TSH to arrange for an upgrade to the current version.**

You must have a login to be able to access our Sites.  
If you do not have a login then please contact [Support@tshinc.com](mailto:Support@tshinc.com)  
This site is designed to allow both customers and internal support staff to download the latest release of MDS for Windows

Last update: kpl 01/08/08

**Click here for Detailed Installation Instructions**

Once downloaded simply double click the setup.exe or unzip the file and run setup.exe

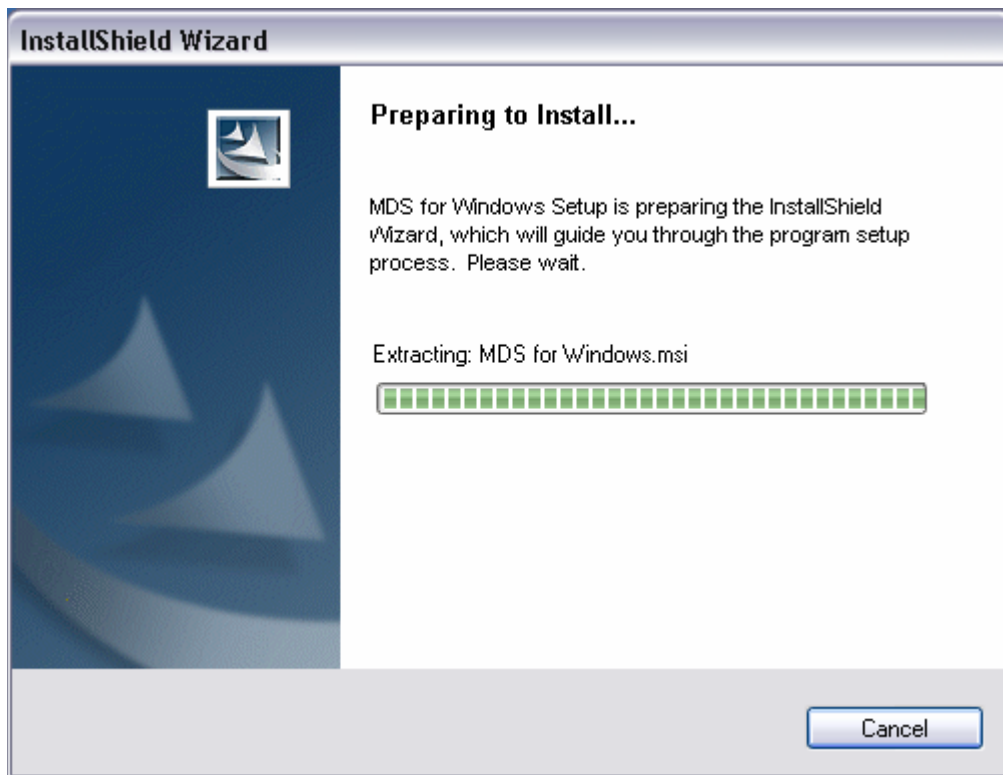

**Version 8.3.26 for MDS Releases 12.90710 and above**  
Click here for the Zip version: [setup8326.zip](#)  
Click here for the self extracting .exe version: [setup8326.exe](#)  
Click here for a 8.3.x to 8.3.24 patch version: [patch8326.exe](#)

Script to Re-Register Controls [midsreg.vbs](#)

**Version 8.2.1 for MDS Releases prior to 12.90710**

Internet 100%

4. Please contact TSH Support (email [support@tshinc.com](mailto:support@tshinc.com)) for your download password
5. Chose “Save”
6. Save it to somewhere you can find it like the desktop. (If you save it to the network you don't have to do steps 1-6 for each computer. Just skip to 8 and access the setup file from the network folder)
7. Click on the “Setup” file on your desktop to start setup. (or network folder)

9.

10. Click "next" through all of the default options. If any errors appear just note them and continue.

11.

12. When setup is complete you should see a Purple TSH Icon on the desktop.

13.

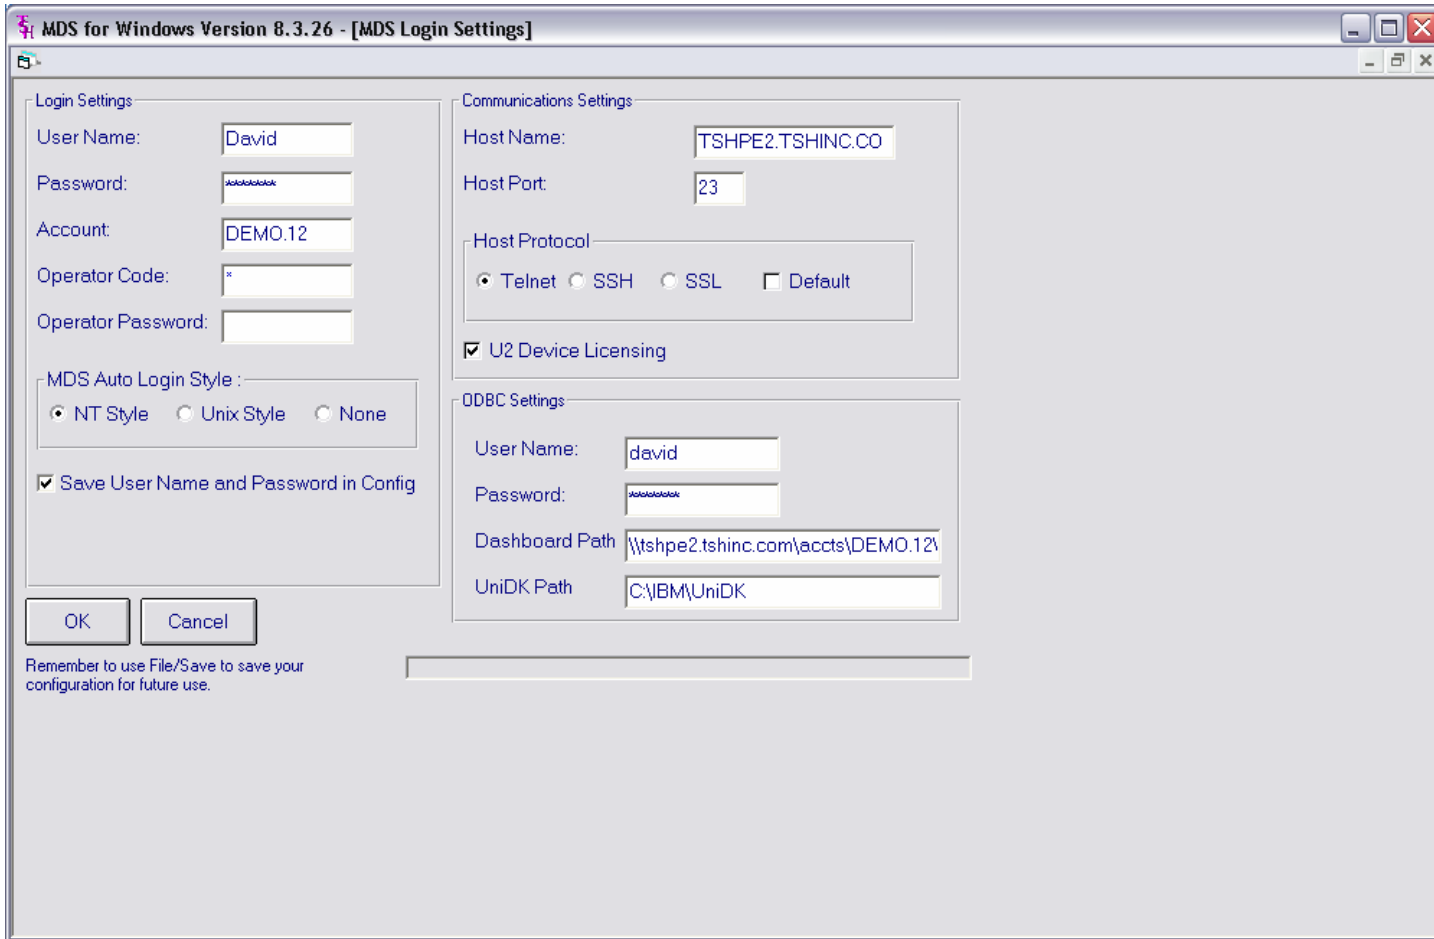

14. Open WinMDS by Double Clicking on the WinMDS.exe Icon

15. Winmds.lnk

16. Go to the 'Settings' menu.

17. Go to 'Communications'

- 18.
19. Host name is Your Server IP address or name
20. Username is your username
21. Password is your password
22. Operator Code is your MDS Login – Note you may use your username as your operator to simplify login.
23. Choose the Appropriate Login Style – If unsure Choose None (or contact support@tshinc.com)
24. Account is not required unless you have chosen a login style If so enter the Name of your Database IE DEMO.12
25. Make sure “U2 Device licensing” is checked if you are using multiple logins from a single PC.
26. If you are not utilizing the MDS Dashboard then Skip to Step 35
27. For the Dashboard to function you will need to configure ODBC Settings:
28. ODBC User name: your odbc username
29. ODBC password: your password
30. Note: TSH will provide passwords for ASP accounts others need to contact their System Administrator
31. Dashboard Path: \\SERVERNAME\FORM.ARCHIVE.PATH\reports eg. \\TSHPE2.TSHINC.COM\FORM.ARCHIVE\REPORTS
32. Note: You will need the ability to browse and connect to your server via Microsoft/SMB file sharing , MDS Timeshare/ASP clients see section at end.
33. Since each operator has their own dashboard - you will need to setup the OPERATOR DASHBOARD Maintenance ON THE UTILITY MENU.
34. To Setup your Dashboard as your Menu Default go to the Menu GUI → Dashboard Interface
35. Click “OK” to save your configuration
36. Go to “File” menu and click “Save Session as”

37.

38. Enter a Name you will remember this session by – IE MDS-*Servername-username*

39.

For users who will need to connect to their server to access the Form.archive (PDF's of reports and forms) and crystal reports on the MDS ASP/Timeshare System  
Please see below.

**For XP clients to access FORM.ARCHIVE to view and upload files:**

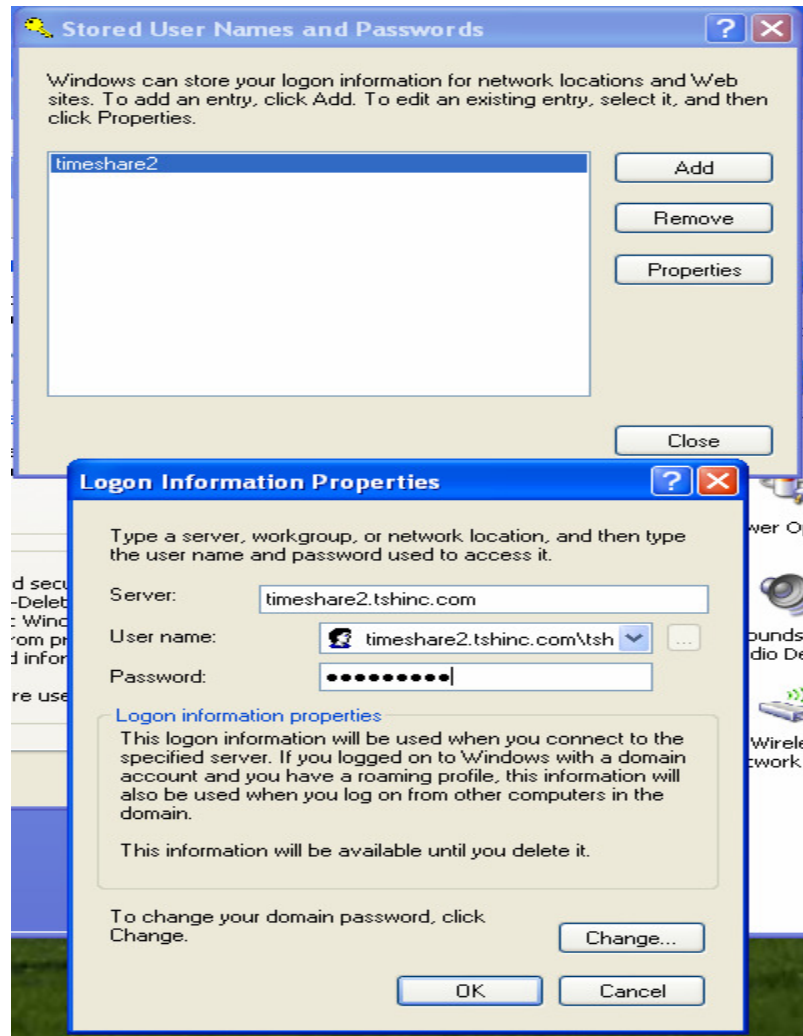

1. Go to start>settings>control panel> user Accounts

2. Click on the Advanced Tab

3. Click on Manage Passwords
4. Click on Add and add the server in the server box with the name of the server provided to you. (timeshare.tshinc.com or timeshare2.tshinc.com for ASP typically)
5. In the username box type the servername\your login name (timeshare.tshinc.com\username)
6. In the password box type your password.

7. Click OK.
8. Next in MDS go to (Utilities) and (MDS Printer Utilities), then (Printer Assignment)
9. In line 4 enter [\\servername\accountnameARCHIVEFORM](#) EG. [\(\\timeshare2.tshinc.com\TSHARCHIVEFORM\)](#)
